PRODUCE NOTES

MEAT & POULTRY

We use **LIMESTONE COAST** premium beef and **FLEURIEU** lamb, proudly South Australian quality products derived from pasture fed, free range animals.

Free range chicken is our preference at EPICURE. We source the best free range chicken which both supports local producers and means the chickens are reared in the most humane way possible, living as nature intended.

FISH & SEAFOOD

We use only **AUSTRALIAN SEAFOOD** on our menus, ordered in fresh daily from the Angelakis Brothers Seafood Merchants. Australian fisheries are administered according to the principles of **ecologically sustainable development** (esd) and Australia is a world leader in sustainable fisheries management both wild caught and aquaculture systems.

AQUACULTURE refers to raising fish, prawns, oysters, and other marine or freshwater foods under controlled conditions in water, either in ponds on shore or contained in net cages located in bays or in the open ocean.

EGGS

At EPICURE we only use cage-free eggs with our preference being free-range. Battery hens suffer intensely and continuously throughout their lives. Cage-free hens are able to walk, spread their wings and lay their eggs in nests, vital natural behaviours denied to hens confined in cages. We only use free-range eggs on our breakfast menus.

PRODUCE NOTES

DAIRY

ARTISAN LOBETHAL CHEESE began as a way to generate income from a small herd of goats purchased to complete the hobby farm picture. In 1999, the idea was conceived to market the product to a wider audience. With a strong belief in local produce, this cheese maker only uses locally sourced cows and goats milk. With a range that includes brie, blue, camembert and variations of (double and triple cream, cow & goat and marinated products) this producer is able to produce high quality artisan cheese in large volumes without compromising on quality.

HINDMARSH VALLEY DAIRY is a small farmhouse dairy situated on the Fleurieu peninsula in South Australia, specialising in the production of a range of goat milk cheeses and dairy products based on traditional French, Italian and Swiss recipes. Production is based on artisanal principles where the cheeses and dairy products are made on farm from the milk received from a co-located dairy and the milk of their own animals. We use Hindmarsh Valley Dairy butter for its unique flavour, texture and uncompromised quality.

OLIVES

EPICURE loves using **PENDLETON ESTATE** extra virgin olive oil. Building on the 130 year tradition of growing olives in the Australian limestone coast region, the grandson of the founder, Grant W Wylie, established Pendleton Estate olive groves in the early 1990s. To ensure optimum quality and taste, Grant together with other local growers helped establish a state of the art olive mill, now one of the largest in Australia.

PENFIELD OLIVES is family-owned and family-operated, growing, curing and producing a range of traditional varieties of table olives, including kalamata olives, green jumbo (blonde) and wild olives. From some of the best picked varieties in our olive grove at Penfield Gardens, South Australia, we also produce a delightfully fresh and fruity first-pressed extra virgin olive oil.
