PRODUCE NOTES

MEAT & POULTRY

GOORALIE FREE-RANGE PORK is a mixed farming property near Goondiwindi, on Queensland's fertile darling downs. They produce pork that is supreme in taste and tenderness. This is achieved through a stress-free environment allowing them to be "as happy as" and fed a diet free of chemical residue, antibiotics and hormone growth.

FREE RANGE CHICKEN is our preference at EPICURE. We source the best local free-range chicken which both supports local producers and means the chickens are reared in the most humane way possible, living as nature intended.

FISH & SEAFOOD

RIVER CITY SEAFOODS are our chosen suppliers of local and sustainable seafood. **HARVEY BAY, MOOLOOLABA, BUNDABERG** and the **FRASER COAST** are just a few of the regions where our seafood comes from. Australia is a world leader in sustainable fisheries management both wild caught and aquaculture systems.

AQUACULTURE refers to raising fish, prawns, oysters, and other marine or freshwater foods under controlled conditions in water, either in ponds on shore or contained in net cages located in bays or in the open ocean.

DAIRY

The brief version of the history of cheese making in Queensland started in Toowoomba accredited for producing Australia's first blue-vein cheese while Warwick was well known for its cheddar. Locals were fiercely loyal to their own cheese makers but, as the co-ops grew, multinational corporations swallowed them up. Local cheese basically ceased to exist and those who wanted more than the homogenised supermarket variety relied on Victorian or Tasmanian cheeses to furnish their plates. In the past decade, there has been a welcomed return to artisan cheese making. Now there are over twenty small producers in Queensland, making everything from buffalo milk mozzarella to specialty Swiss cheeses as well as goat and sheep's milk cheeses.

At EPICURE we only use **FAIR TRADE**. Fair trade coffee is coffee which is purchased directly from the growers for a higher price than standard coffee. The purpose of fair trade is to promote healthier working conditions for all aspects of farming and production as a sizeable proportion of the world's coffee is produced in underprivileged countries. Buying direct from the growers at a higher price than standard ensures growers a guaranteed minimum fair price for their coffee.
